

PROTECTS AGAINST

TERMITES

WOOD ROT

WATER SATURATION

AURALAST—THE WORRY-FREE WOOD®

Protects Against Termites, Wood Rot, & Water Saturation.

Reliability

Only JELD-WEN makes window and door products with natural pine AuraLast® Wood.

Surface to Core Protection

AuraLast Wood provides virtually 100% penetration of the protective ingredients while other manufacturers use submersion/dip-treatment methods which only protect the outer surface of the wood.

Protects Against Termites

Harmful termites will eat through unprotected wood—not so with AuraLast Wood.

Protects Against Wood Rot

AuraLast Wood window and door products maintain their structural integrity even in the harshest weather and toughest climates.

Protects Against Water Saturation

AuraLast Wood offers superior resistance to water saturation, which protects against swelling that causes windows and doors to stick.

Working with AuraLast Wood is Easy

Nail and screw holes and trimming and sanding will not compromise the shield of AuraLast protection.

WARRANTY**
Door Frames & Components

We Care

- » 96% Fewer Volatile Organic Compounds (VOCs) released during manufacturing process than traditional wood submersion treatment methods
- » Water based solution safe to handle compared to much harsher, solvent based treatments
- » Longer lasting products mean less waste and more efficient use of our natural resources.

BEAUTIFULLY THE BEST

- » AuraLast Wood is **COLORLESS**. The protective water based solution process does not alter the color of the wood's natural beauty.
- » AuraLast Wood is **ODORLESS**. The protective water based solution process does not create offensive odors unlike harsh solvent based treatment methods.
- » AuraLast Wood door frames can be **STAINED** to match any wood tone/color application and no pre-sealers are needed.
- » AuraLast Wood door frames; the **COMPLETE FRAME SYSTEM** is protected (top to bottom & surface to the core) from wood rot, termites and water saturation. Unlike other frame systems with a few inches of composite or PVC attached at the bottom leaving over 90% of the frame system unprotected.
- » AuraLast Wood door frames; all **NATURAL WOOD** is much easier to work with compared to other composite or PVC materials.

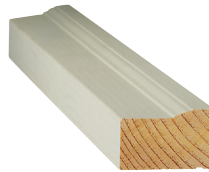

The JELD-WEN website is your ultimate resource for learning about our reliable windows and doors. It has all the product information and design advice you need. Visit us at jeld-wen.com today.

AuraLast® Wood Exterior Door Frame and Component Specifications

Exterior Door Frame Specifications

- Material:**
- Fingerjoint primed paint grade
 - Natural wood, Clear pine, Stain grade
- Pattern:** Custom
- Thickness & Width:**
- 1-1/4" x 4-9/16"
 - 1-1/4" x 5-1/4"
 - 1-1/4" x 6-9/16"
 - 1-1/4" x 7-1/4"
- Lengths:**
- 6'8", 7'0" & 8'0" door openings
 - Lineal
- Options:**
- Weatherstrip installed
 - Hinge & Strike Mortise
 - 20-minute fire rating

Exterior Brickmould/Moulding Specifications

- Material:**
- Fingerjoint primed paint grade
 - Natural wood, Clear pine, Stain grade
- Pattern:** Custom
- Thickness & Width:** 1-1/4" x 2"
- Lengths:**
- 6'8", 7'0" & 8'0" door openings
 - Lineal

Exterior Garage Door Frame Specifications

- Material:**
- Fingerjoint primed paint grade
 - Natural wood, Clear pine, Stain grade
- Pattern:** Custom
- Thickness & Width:** 2" x Custom
- Lengths:**
- Cut to length
 - Lineal

Exterior Center Mull Specifications

- Material:**
- Fingerjoint primed paint grade
 - Natural wood, Clear pine, Stain grade
- Pattern:** Custom
- Thickness & Width:** Custom
- Lengths:**
- 6'8", 7'0" & 8'0" door openings
 - Lineal
